- Contemporary design
- Bespoke finishes available

AC4 BED

The Aidacare AC4 bed is the perfect blend of function and durability, providing a reliable sleeping solution for your residents. The gentle gunmetal bed frame coupled with teak bed ends or upholstered surround options, makes it easy to blend with interior styling, delivering a homely ambience. Designed and manufactured to the highest standards with trusted TiMotion electronics for long-term reliability and minimal maintenance.

Multiple functions and accessories combine to exceed the comfort, support, and safety expectations for a diverse range of users, whilst facility carers benefit from the considered design.

Comes standard with Sublime teak laminate head and foot boards
Shown with independent raised back function

Lowered flat laying position

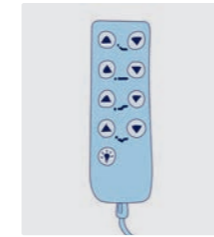

Independent raised knee function

Back and knee break raised

Functional · Durable · Reliable

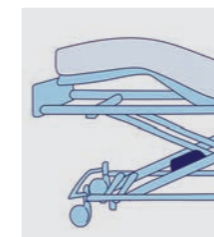

Designed for carers and residents

TiMotion electronics are up to 20% faster than other brands, saving carers time. Simple and intuitive handset is easy to operate.

Maintains infection control

Wipe clean mattress platform allows easy cleaning for infection control compliance.

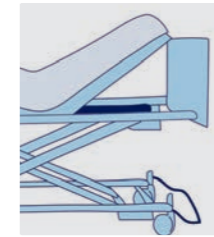

Easy access to the control box

The control box is located conveniently within reach underneath the foot section, allowing easy access for maintenance staff.

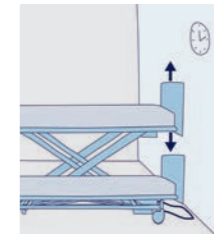

Personalised sleeping solution

- Quick attaching and easily removable head and foot boards
- 200mm mattress platform extension caters for taller residents
- Optional upholstered Allure surround for an alternative homely style

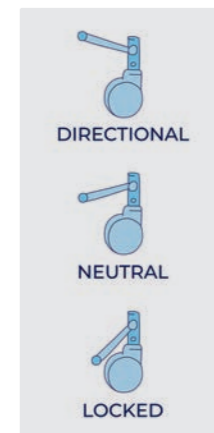

Considered cable management

Ensures cables are kept safely out of the way, minimising damage and downtime.

Ensures wall protection

Wall locator bar included and bed rises vertically thereby minimising costly wall collisions while maximising functional bedroom space at the foot-end.

Enhanced manual handling

- **125mm twin castors:** Offer lower rolling resistance for easier bed repositioning
- **Central Locking - Total & Directional:** Activated centrally via an easily accessible full-width foot pedal, push down for total lock, or lift up for directional lock to facilitate safe and easy tracking through corridors and doorways
