

Mangar Eagle - Lift Cushion

The Eagle lifting cushion will both sit up and lift a fallen person. It has a small footprint and can be used in small spaces such as a bathroom. The small footprint design allows for the Eagle to be used in confined spaces, where traditional lifting equipment may not fit. Ideal for use within a home environment.

- Inflate swiftly using the Airflo Compressor and intuitive hand control—it is as easy as a touch. Minimal training is required, making it accessible for users of all levels. Whether indoors or outdoors, its versatility knows no bounds. Use it independently or with assistance.
- Easy to clean using a proprietary, non-abrasive mild liquid cleaner, simply deflate, fold, and stow away in the provided carry bag – ideal for infection control management.
- Designed with safety in mind. Capable of lifting individuals weighing up to 220kg from the floor, it provides unparalleled rigidity and support to the back.
- Perfect for supported living apartments and home care settings, it offers peace of mind with every lift.
- Experience a lift in both safety and dignity. By reducing the risk of musculoskeletal injuries for caregivers, it is a game-changer in care routines.
- Individuals with cognitive impairments find comfort in the Eagle’s gentle lifting mechanism, while the added backrest support provides comfort and peace of mind for carers and users alike.
