

JAY - Duo

JAY®

- Designed for the client who has symmetrical posture needing mild to moderate physical support
- The lightweight aluminium pre-contoured solid base attaches to chair rails effectively replacing the sling seat upholstery
- The aluminium base in combination with a soft foam & fluid cushion provides an anatomically correct, stable base of support that promotes postural stability
- The pre-contoured foam base of the Jay Duo provides mild lateral and forward/rearward stability and provides a base of support that promotes foot propelling or independent transfers
- The 'Jay Flow' fluid pad reduces the effects of shearing on the ischial tuberosities
- Most suitable for the client at moderate risk of skin breakdown who can ideally perform independent weight-shift
- All Models Includes 2 way stretch cover
