

Handi Lift Walk Belt

- The Handi Lift Walk Belt is a popular transfer belt for patient handling. You can use it for transferring people, and when walking with people who need help
- Two Carers normally work together when using the Handi Lift Walk Belt
- The 10 cm / 4 inch wide double Hook & Loop Tape belt is very supportive. You can fit the Belt around the waist on ladies, or under the arms of men and some women
- All four of the webbing handles are padded
- Wipe clean with a hospital grade disinfectant or wash up to 80°C (176°F). Air or tumble dry on a cool setting, ensuring the drum is cool. Ensure the product is dry before using or storing
- Different colours for different sizes
- Total length in specs are the measurement for the waist

- ✔ Contracted DVA product
- ✔ Contract approved
