

## Betterliving Portable Vibrating Doorbell

The portable door bell provides a variety of melodies and has three different operation modes: ringing, vibrating, and flashing. In addition, the doorbell comes with a remote control that has a stable and long-range signal, which can be received from any location within the home.

- **Wireless and Portable:** Wireless doorbell designed with portability for easy use.
- **Enhanced Notification:** Rings, vibrates, and flashes for multiple notification options.
- **Versatile Modes and Ringtones:** Multiple modes and ringtones for customisable alerts.
- **Long Range Transmission:** Ensures reception from a distance for added convenience.
- **Link Multiple Doorbells:** Capability to link multiple doorbells for broader coverage.
- **Extended Receiver Range:** Extended range for the receiver, providing flexibility in placement.
- **Belt Clip for Convenience:** Equipped with a belt clip for easy attachment and accessibility.
- **Battery-Powered:** Requires 3x AAA batteries (included) for hassle-free operation.
